Morning,

Thx for updates. I will work on sub team materials working from what roles document Susan developed and timeline Erik is developing and update contact list. I have to review a few proposals and get my 450 done so will be towards later part of the day.

Ex. 6 - Personal Privacy TGIF, can't wait for weekend, etc.

Ex. 6 - Personal Privacy

I'll just chime in with what a few PSFTFs that am doing. Meeting w/ Lisa and perhaps Angela to get perspective on timing for PSFTF calendar and tribes. Doing some research for the science and monitoring subgroup, namely, what are the analogs? Writing the agenda for March 6 Michelle meeting.

Subject: What I'm doing today

Gina and Erik, My plans for the day are to first figure out what I'm going to say at the Michelle HTL briefing next Tues morning (we have a slide show). Then work on the HTL and Cumulative Effects Briefing docs for the sharepoint site (with more details and history). I want to have them reviewed by ARU before posting. Then work on two Tribal subawards for Lisa. If I have time and leaking over to Monday, I plan to send the PSFTF sharepoint "application" to James Rowlan. Let me know if there is something else you need that "trumps" the other stuff, and I can switch gears.
